Digest Basic is a gentle potency digestive enzyme blend which contains essential enzymes that support digestion for all major food groups. If you are going to buy one digestive enzyme formula for your entire family, then Digest Basic is the one!*

At any age we can benefit from supplemental enzymes that enhance digestion and elimination. Digestive enzymes are critical since they are in charge of breaking down the foods we eat so that the body can more easily absorb them. Moreover, enzymes work specifically on each type of food so that digestion can proceed in an effortless and efficient way. When you eat foods that have no enzyme activity, such as cooked or processed foods, your body needs extra support for digestion. The better we digest our foods the more nutrients that are available to the body.

Digest Basic is intended for the whole family as an introductory digestive enzyme product. Taken with each meal, Digest Basic's broad range of plant based enzymes are able to support healthy digestion and elimination.

Digest Basic utilizes Enzymedica's exclusive Thera-blend process for the enzymes protease, lipase, amylase and cellulase. These enzymes are able to digest proteins, fats, carbohydrates and fiber in broad pH range and have the ability to break down more bonds which mean that Thera-blends work longer in the body and have the ability to break down more protein, fats and carbohydrates than single enzyme products.

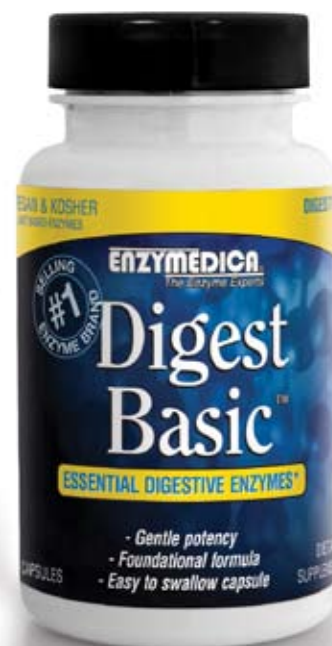

The capsules used for Digest Basic are very small (same size as Digest) which makes Digest Basic easy to take for individuals that have trouble swallowing capsules. Digest Basic is also excellent for individuals who may have experienced sensitivities to high potency digestive enzyme blends.

The enzyme experts know how to formulate products that are the most beneficial for you and your family! All of Enzymedica's products are 100% vegan and contain no fillers. Digest Basic is also free of common allergens including gluten and casein.

Recommended Usage

Take one capsule with every meal for enhanced digestion. More may be taken as needed. For those that need a higher potency enzyme formula look for Enzymedica's Digest or Digest Gold.

- Gentle potency
- Foundational formula
- Easy to swallow capsule

Supplement Facts

Serving Size: 1 Capsule
Servings Per Container: 90

Amount Per Serving		%DV
Protease Thera-blend™	20,000 HUT	-
