www.Enzymedica.com

**Enzymedica has found a way to improve upon two of its best selling products by combining them to increase potency and value. Enzymedica's Repair Gold combines the anti-inflammatory enzymes found in Repair with the Serratiopeptidase enzyme found in SerraGold.**

For thousands of years the body has protected itself from life threatening illness and injury through the often misunderstood inflammatory process. In fact, there are beneficial inflammations occurring at all times at a low level for the healing, repair and cleansing of the body. On the other hand, inflammation that becomes chronic can be disease bearing and life threatening. What can be done to support the beneficial processes of mild inflammation while limiting the harmful effects of chronic inflammation? Repair Gold.

Repair Gold represents the highest potency enzyme formula designed to increase circulation and speed recovery\*. The potency is derived from proteolytic enzymes or what are often called proteases (enzymes that break down protein). Additionally, proteolytic enzymes support the immune system by breaking down foreign particles and debris as well as accelerating elimination of unwanted pathogens and toxins by way of the lymphatic system. This has been shown to reduce the negative effects of harmful inflammation.\*

The enzymes in Repair Gold can assist with capillary repair, speed tissue and muscle recovery, reduce bruising and swelling, reduce joint discomfort, support cardiovascular health and help increase circulation; all of which can lead to a faster recovery.\*

## Recommended Usage

2 capsules 3 times per day at least 1 hour before or 2 hours after a meal. Repair Gold may be taken before and after strenuous exercise to speed recovery. More may be taken as needed.

- **2 products in 1**
- **Healthy inflammatory response**
- **Supports joint function\***

### Supplement Facts

Serving Size: 2 Enteric Coated Capsules  
Servings Per Container: 15, 30, 60

Amount Per Serving		%DV
Serratiopeptidase	80,000 SPU	*
Protease <i>Thera-blend</i> <sup>™</sup>	130,000 HUT	*
Papain	3,000,000 PU	*
Bromelain	1200 GDU**	*
