www.Enzymedica.com

**Two times stronger than Enzymedica's original ViraStop formula, ViraStop 2X provides our highest blend of therapeutic proteolytic enzymes to aid the immune system and promote healthy well-being.\***

Whether your concern is seasonal well-being or general immune health, ViraStop 2X contains Enzymedica's highest blend of therapeutic proteolytic enzymes. Two times stronger than Enzymedica's original ViraStop blend, you may use ViraStop 2X daily or at the onset of a condition.

Protease enzymes break down proteins, be they proteins in the digestive system, cellular debris or toxins in the blood. Not all proteases, however, can break down all proteins. Therapeutic protease enzymes go beyond digestion, travel through our bloodstream and serve as catalysts to metabolism, detoxification and immune activity. The proteolytic enzymes in ViraStop 2X support the enzymatic activity of the human body, making the formula a potent immune balancer.

While proteolytic enzymes are able to dissolve almost all proteins, this only applies to proteins that are not components of living cells. For protease to digest a protein it must be damaged, attached to a dead organism, or be a protein that does not belong in the body. The body employs enzymes to break down foreign invaders such as bacteria, yeasts and viruses. This happens because viruses are cell parasites consisting of nucleic acids covered by a protein film. Once digested, the body eliminates the virus through its inherent systems of purification and elimination.

## Proteolytic Enzymes Support Optimal Immune Health

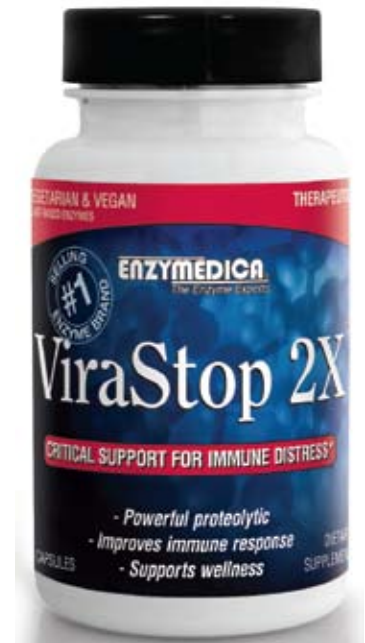

Research has shown that oral proteases, taken as a dietary supplement on an empty stomach are absorbed and carried into the blood stream where they are bound to plasma proteins known as Alpha-II-macroglobulin. Recent research also indicates that the oral proteases bound to these plasma proteins are able to break down protein based pathogens in the blood. This includes viruses, fungi such as candida, bacteria and parasites.

ViraStop 2X employs a unique ultra high potency blend of protease enzymes in place of the herbs and nutraceuticals found in many products in the wellness category. ViraStop 2X contains Enzymedica's Thera-blend™ of eight different proteases chosen for their unique proteolytic abilities. Taken on an empty stomach, the protease enzymes found in ViraStop 2X will reduce the burden on the immune system, promoting the breakdown and elimination of proteins in the bloodstream, aiding optimal immune function.

## Recommended Usage:

For maintenance — 1 capsule, once a day, 1 hour before or 2 hours after a meal (empty stomach). For therapeutic purposes 1 capsule of ViraStop 2X may be taken 3 times per day. More capsules may be added as needed.

- **Powerful proteolytic**
- **Improves immune response**
- **Supports wellness**

## Supplement Facts

Serving Size: 1 Capsule  
Servings Per Container: 90

Amount Per Serving		%DV
Protease Thera-blend™	300,000 HUT	*
Mucolase	16 mg	*
Catalase	100 Baker	*
Serratopeptidase	50,000 SPU	*
Nattokinase NSK-SD	800 FU	*
Mineral Blend	64 mg	*

\*Daily Value not established

OTHER INGREDIENTS: 100% Vegetarian Capsule (cellulose, water)  
CONTAINS NO dairy, preservatives, salt, sucrose, soy, wheat, yeast,  
nuts, corn, gluten, casein, potato, rice, artificial colors or flavors.

Keep closed in dry place; avoid excessive heat.

**90 count**
